Agenda, list of people attending? Our ecological risk assessor can't attend. A written response to the comments and a written plan to address the issues would be useful and may be necessary for our ecological risk assessor's review and further input.

Thanks

Carolyn and Marilyn, obviously this has been an odd week.

Could we plan to talk with you next week as to next steps... we believe it would be constructive to meet at the site and talk in context about your questions. We have some thoughts as to how to proceed.

Thank you.

Are the results for the slag/soil sampling along the Bass River in Beverly reportable concentration under the MCP and if so, has a report been prepared and submitted to the DEP?
